

Tips for Virtual Recruitment

- Have a good background (solid colored wall, if possible)
- Do a practice round: make sure your audio is working correctly and your lighting is good
- Be positioned well in the screen
- Be in a comfortable seating position
- Try to look at the person you're talking to by looking at the camera and not the screen
- Be patient with technology; it can get tricky
- Remember to smile
- Be in a distraction-free environment; no other voices or noises should be heard
- There may be two or more sorority girls or PNMs on the screen, so be prepared for the possibility of a group dialogue rather than a one-on-one conversation
- Be aware of your body language and facial expressions
- Speak clearly
- Be yourself
- Enjoy and have fun!
